CODE DESIGN
ACADEMY

APPLY TODAY!

The CoDesign (Code + Design) Academy is a unique offering where students have the opportunity to experiment with emerging technology to solve problems.

Students are exposed to coding, 3D printing, gaming, virtual reality, robotics, prototyping and space experiments to find creative ways to apply the Design Thinking Framework in a practical application. Students can expect to find themselves challenged, inspired and transformed by learning experiences connected to real-world problems.
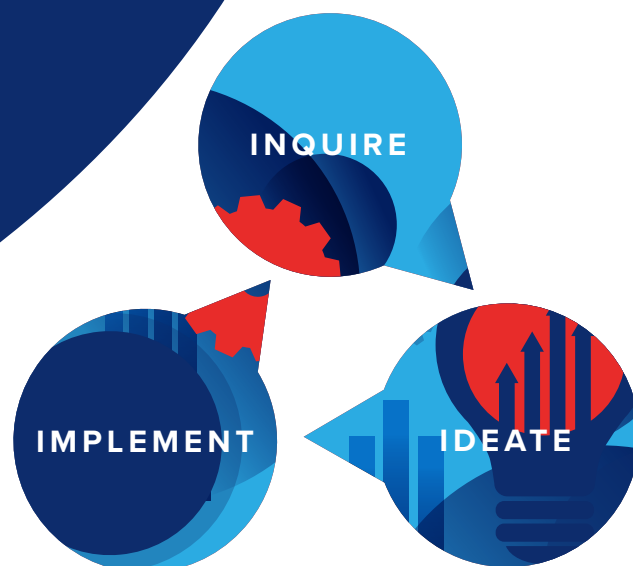

The Educator WINNER 2019

GOOD DESIGN AWARD® WINNER

PIMPAMA STATE SECONDARY COLLEGE

INQUIRE

IMPLEMENT

IDEATE

THE DESIGN THINKING FRAMEWORK

The CoDesign Academy is seeking students who are interested in:

|							
Technology	Virtual Reality	3D Printing	Coding	Space Experiments	Robotics	Gaming	Being Creative

The study of CoDesign will help students to be more agile in a constantly changing future. They will be prepared for subjects that cross the Design, Digital Technology, Industrial Technology and Visual Art curriculum offerings while developing capabilities of successful and creative 21st century citizens.

The Creative Industries Department has won two Good Design awards and was named one of Australia's most innovative schools of 2019 for its curriculum development and unique immersive programs.
